

**Fatiha Saïs** is currently an associate Professor at the Computer Science Research Laboratory (LRI) of Paris Sud University, Paris Saclay University. Her research focuses on identity management in the Web of data, knowledge graph fusion, knowledge discovery from RDF knowledge graphs, and more recently on the veracity assessment in knowledge graphs. Her work has been included in several national, industrial and European projects. She has published more than 50 research papers in national and international conferences and journals like, ISWC (International Semantic Web Conference), Journal of Web Semantics and Journal of Data Semantics. She served as a PC member for international conferences (ECAI, ICCS, SIMBig, etc), national conferences (EGC, IC) and reviewed articles for International journals (KBS, JWS, KDE, JoDs, etc) and conferences (SIGMOD, ISWC, ESWC, EGC, IC, BDA, etc.).
